

Artie uses exclusively type **6063 Marine Grade Aluminum** which has been heat treated.

Artie only makes **Full Welds**, no tack welds in manufacturing where the structure is hidden.

Artie powder coats all aluminum frames with outdoor quality powder coat material whether the metal is visible or not. Colors will be coordinated with weaving or upholstery.

Artie uses exclusively **3000-hour UV Rated** weaving material when HDPE weaving is used.

Artie leaves no open-ended tubing facing UP to collect water hidden under the upholstery or weaving.

Artie designs are by internationally known designers and are original creations.

Artie furniture is made in a factory using tooling, not a shop. All items are **Guaranteed Three Years**. All Artie workers sign the furniture they have built.

Artie designs are patented.

Artie is concerned with comfort, aesthetics, durability, and being friendly to the environment.
